WHO WAS LOGAN SINGER?

Logan was sharply intelligent which led to him being an outstanding student at U-High. He was particularly proud of maintaining a 4.0 GPA. Logan enjoyed all his classes at U-High, but fell in love with math and computer science. Not surprisingly he aspired to become a mechanical engineer or enter into the computer science field. Logan enjoyed participating in extracurricular activities including track, Knowledge Bowl, and National Honor Society.

Outside of school Logan particularly enjoyed crafting and landing one-liners and puns. He was an aficionado of games, whether video, party, or card, never "bored of board games". Logan was a lover of fireworks, Halloween, Sasquatch, Bohemian Rhapsody, and puzzle escape rooms. Logan was a connoisseur of waffles, cheese pizza, chocolate milk and cookies & cream ice cream. Logan loved spending time at the family river cabin whether being around a campfire, tubing, kayaking or just hanging out.

He had an infectious smile and laugh. Logan was truly a friend for life. He was always true to himself and never wavered. Logan was fiercely loved by all who got to know him. Logan is sorely missed every day.

It is our sincere hope that by applying and being awarded the Logan Singer Memorial Scholarship, the recipient will honor Logan by making the most of their education to make their life better. We also want the recipient to carry forward the message that it is okay to talk about mental health so one day emotional health is just as important as physical health.

"In one of the stars I shall be living. In one of them I shall be laughing. And so it will be as if all the stars will be laughing when you look at the sky at night."
